_DREEFT

DO YOU WANT TO BRAKE FREE ?

EPPUR

MADE IN
FRANCE

SLOW DOWN

The first braking device for manual wheelchairs
A SET OF WHEELS TO SLOW DOWN WITH NO PAIN

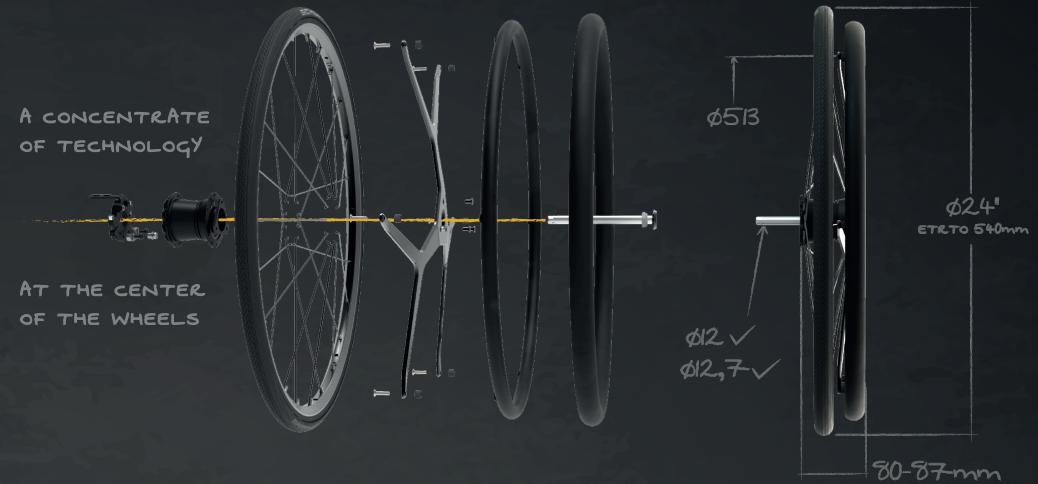

Today, braking or turning a wheelchair implies using your hands as brake pads, causing shoulder pain and hand burns. Thanks to Dreeft wheels, brake with your fingertips with no effort or friction!

Just lightly pull the handrim backwards to activate the coaster brake system.

GO FURTHER
