**SMARTCHAIR**  
MAX-S

## SmartChair is our latest foldable electric wheelchair, designed to give you newfound independence and make work easier for caregivers.

SmartChair is our latest foldable electric wheelchair, designed to give you newfound independence and simplify work for caregivers.

With its advanced ergonomic design, SmartChair offers maximum comfort and support, allowing you to navigate your surroundings with ease. The smart foldable construction makes it easy to transport and store, ensuring every journey is smooth and convenient. Explore the world without limits – where comfort meets convenience and obstacles disappear.

To further assist caregivers, SmartChair is equipped with smart, extendable loading wheels – a groundbreaking feature that enhances ergonomics when lifting. This innovation reduces the required lifting force by up to 40% without compromising the wheelchair's sturdy and durable construction. We call this smart aid "the light lift."

## Specifikations

## The lighter lift

---

We are committed to enhancing the working conditions for caretakers. To support this, the SmartChair Max S includes smart retractable loading wheels called Smart Rollers, a pioneering feature that improves lifting ergonomics without compromising its robust and sturdy construction. This innovation reduces the weight during lifting with 40%.

We refer to this as "the lighter lift."

**Transportation wheels**
